Modhubag, Dhaka - 1217, Bangladesh

Objective

Proactive software developer with proven experience managing end-to-end project lifecycles, from UI/UX design to robust backend architectures. Seeking a challenging role to leverage my expertise in modern web and mobile frameworks to build high-impact, user-centric software solutions.

Skills

- **Programming Languages:** C, C++, Java, Python, Dart, JavaScript, HTML, CSS, SQL
- **AI & Agentic Systems:** Multi-Agent Orchestration, LLM Integration (Claude, Gemini, DeepSeek, Vertex AI), RAG Pipelines, Vector Databases (pgvector), LangChain, Prompt Engineering
- **Frameworks & Technologies:** Flutter, React.js, Laravel, Node.js, Express.js, MERN Stack, Supabase, Firebase, PostgreSQL, MySQL, MongoDB, SQLite
- **Development Tools:** Android Studio, Git, Docker, Postman, VS Code
- **Design & Prototyping:** Figma, Adobe Illustrator, Canva, Wireframing, Prototyping, Design Systems, Usability Testing
- **Web & App Development:** Full-Stack Development, API Integration, Cross-Platform Apps, SaaS Solutions
- **Cloud & DevOps:** CI/CD Pipelines, Cloud Deployment, Docker Containerization
- **Soft Skills:** Leadership, Communication, Problem-Solving, Team Collaboration, Agile Development

Experience

- **Learnathon 3.0 - Geeky Solutions** [🌐] *Dec 2024 - May 2025*
  App Developer & UI/UX Designer Remote
  - Flutter Stack Champion, as measured by outperforming competing teams, by designing and developing a production-ready mobile application focused on usability, backend integration, and real-world problem solving.
  - Enhanced team delivery efficiency, as measured by improved iteration speed and user satisfaction, by conducting UX research, designing user flows, and implementing responsive front-end components.
  - Strengthened cross-functional collaboration, as measured by seamless team communication and feature alignment, by applying agile methodologies, code reviews, and iterative feedback loops.
- **Boraq** [🌐] *May 2023 – Present*
  Founder & Lead Developer Dhaka, Bangladesh
  - Built and shipped full-stack local & foreign full-stack products end-to-end across web and mobile — including **Scol App & CRM**, **ImanPharma**, **Fastra International**, and **Green Miles** — handling design, development, and deployment.
  - Architecting the AI and agent infrastructure layer for a multi-product productivity platform, integrating LLM APIs and designing modular agent pipelines.
  - Reduced deployment times and improved code reliability by setting up CI/CD pipelines, modular architecture, and standardized design systems across multiple projects.
  - Collaborated with cross-functional teams to deliver client projects, maintaining clear requirements, handoff documentation, and code quality standards.
- **Upwork** [🌐] *Sep 2024 – Present*
  Freelance Web & App Developer Remote
  - Completed **4 client contracts** with a **5.0/5.0 rating**, delivering web and app development solutions with full ownership from scoping to deployment.
  - Provided **UI/UX design and full-stack development** services for international clients, adapting to varied requirements and maintaining clear communication throughout.

Education

- **Ahsanullah University of Science and Technology (AUST)** *Apr 2023 - Jun 2027 (Expected)*
  B.Sc. in Computer Science and Engineering Dhaka, Bangladesh
  - **Current CGPA:** 3.233/4.00 (up to 6th semester, improving trend)
- **Islamia Government College** *Jul 2020 – Sep 2022*
  Higher Secondary School Certificate (HSC) Dhaka, Bangladesh
  - **GPA:** 5.00/5.00
- **Sabuj Kanan School And College** *Jan 2007 – Mar 2020*
  Secondary School Certificate (SSC) Dhaka, Bangladesh
  - **GPA:** 5.00/5.00

Honors and Awards

- **Champion in Cross-platform Stack (Flutter)** *May 2025*
  Learnathon 3.0 (Sponsored by Brain Station 23) [🌐]
  - Secured 1st place as part of "Team Synergy," demonstrating excellence in full-stack mobile app development and problem-solving.
  - Completed a 6-month mentorship collaborating with professional developers and software engineers to learn and develop an industry-standard project.

- **AUST Student Research Grant (ASRG)** *Dec 2025*
  Ahsanullah University of Science and Technology (AUST) [🌐]
  - Awarded a grant as Co-Principal Investigator for the project "Last-mile Aid & Survival Transmission (L.A.S.T): A Survivor-Centric Delay-Tolerant IoT Framework for 6G NTN-Based Disaster Resilience."
  - Recognized at the 4th AUST Research Day Award Ceremony for contributing to innovative, IoT-driven disaster management solutions.

- **Web Architect Recognition – AUST IUPC 2025** *Feb 2025*
  AUST Programming and Informatics Club (AUSTPIC) [🌐]
  - Honored for architecting and delivering the official event platform of AUST IUPC 2025, blending web development and UI/UX best practices to ensure a seamless experience.

- **Award-Winning UI/UX Designer** *2023 - 2025*
  AUST CSE Carnival (AUST CSE Society) [🌐]
  - Champion in UI/UX Design Challenge at AUST CSE Carnival 4.0 and 5.0, showcasing design thinking and interface design excellence.
  - 1st Runner-up in UI/UX Design Challenge at AUST CSE Carnival 6.0 delivering a high-impact STAR Cineplex mobile app design under time constraints.

Projects

Development Projects

- **Toroongo – AI-Powered Multi-Vendor E-Commerce Platform** *Feb 2026*
  Tools: React.js, Node.js, Laravel, MySQL, WebSockets, RAG, REST APIs [Live Platform] 🔗
  - Accomplished the successful launch and scale of a zero-commission, multi-vendor e-commerce.
  - Enhanced platform autonomy by engineering an agentic AI layer featuring RAG-powered support agents, generative product listings, and predictive inventory forecasting.
  - Improved system scalability and visual experience by integrating React.js with a robust, real-time Node.js and Laravel backend architecture.

- **L.A.S.T. – Last-mile Aid & Survival Transmission App** *Sept 2025 – Aug 2026*
  Tools: Android, Kotlin, LoRa Mesh, BLE 5.x, SDDTN, LR-FHSS, GNSS [Repository]
  - Accomplished the design of a survivor-centric disaster resilience ecosystem as Co-PI by developing an offline-first mobile app featuring BLE tag pairing and heatmap visualization.
  - Enhanced delay-tolerant connectivity in disaster zones by integrating Software-Defined Delay-Tolerant Networking.
  - Improved real-time rescue coordination by fusing multi-localization signals (LoRa ranging, BLE proximity, GNSS) for accurate survivor tracking and SOS clustering.

- **Iman Pharma – Digital Pharmacy & Healthcare Platform** *Aug 2026*
  Tools: React.js, Node.js, Laravel, MySQL, WebSockets, RAG, REST APIs [Live Platform] 🔗
  - Accomplished the successful launch of a comprehensive e-pharmacy platform, providing streamlined access to a wide range of medications for chronic illnesses like diabetes and hypertension.
  - Streamlined healthcare operations by engineering a secure backend system for real-time inventory tracking, automated order processing, and reliable prescription management.
  - Improved platform accessibility and visual experience by integrating a responsive React.js frontend with a robust and scalable Node.js backend architecture.

- **Nondan – Event Management Platform** *Aug 2025*
  Tools: MongoDB, Express.js, React.js, Node.js, Tailwind CSS, React Context API, React Router DOM, React Toastify, Vercel [Frontend] [Backend]
  - Accomplished a full-stack event management platform by designing and implementing an intuitive frontend with event registration, dashboard, chatbot, and theme management.
  - Enhanced platform reliability by integrating backend APIs for real-time event handling and dynamic content rendering.

- **AUST CSE Carnival 6.0 Website** *July 2025*
  Tools: React.js, CSS Modules, Vite, React Router DOM [Live Platform]
  ◦ Accomplished the development of the official event website by building a responsive interface and optimizing the registration process for smooth user interaction across devices.

- **Sohojogi – One-Stop Home Service Platform** *Dec 2024 - May 2025*
  Tools: Flutter, Dart, Supabase, Provider [GitHub]
  ◦ Accomplished a cross-platform home service application by implementing user profile management, booking workflows, and Supabase backend integration.
  ◦ Enhanced user experience by adding multi-language support, dark/light mode, notifications, and location-based services.

Design Projects

- **STAR Cineplex – Movie Ticket Booking App (UI/UX Design)** *Sep 2025*
  Tools: Figma, Adobe XD, Illustrator, Photoshop [UI Design] Bē
  ◦ Designed mobile UI for ticket browsing, showtimes, seat selection, and booking workflow
  ◦ Focused on clean navigation, minimalistic design, and responsive mobile-first experience

- **Sahajyo – Rescue & Relief (UI/UX Design)** *Nov 2024*
  Tools: Figma, Adobe XD, Illustrator, Photoshop [UI Design] Bē
  ◦ Designed disaster relief app UI with heatmaps, emergency alerts, location-based rescue, and social feed

- **AuraAccess – ISP Customer Portal (UI/UX Design)** *Jan 2025*
  Tools: Figma, Adobe XD, Illustrator, Photoshop [UI Design] Bē
  ◦ Designed ISP portal UI for subscription management, billing, speed monitoring, and support dashboards

- **Great CSE Carnival Adventure (UI/UX Design)** *July 2024*
  Tools: Figma, Adobe XD, Illustrator, Photoshop [UI Design] Bē
  ◦ Designed interactive gamified interface for tech festival including registration, leaderboard, and visual storytelling

Leadership Experience

- **General Secretary** *Nov 2024 - Present*
  AUST Programming and Informatics Club (AUSTPIC) [🌐]
  ◦ Led a multidisciplinary team in modernizing digital infrastructure and streamlining club operations through strategic web development and tech automation initiatives.
  ◦ Coordinated 100+ volunteers and cross-functional teams to deliver a successful national-level AUST IUPC 2025, enhancing event scalability and impact.
  ◦ Delivered seamless digital and operational support for Job Fair 2025 by aligning with industry partners including Excellence Bangladesh and SheSTEM.
  ◦ Cultivated a high-performing tech community by mentoring junior members and fostering a culture of collaboration and innovation.

- **Founder & Head** *May 2023 – Present*
  Boraq (boraq.io) [🌐]
  ◦ Founded Boraq with a dual focus on service excellence, creative innovation, and sustainability, shaping its long-term strategy and growth trajectory.
  ◦ Orchestrated a team of developers, designers, and researchers to deliver 10+ client and in-house tech solutions.
  ◦ Cultivated a startup culture centered on agility, client success, and modern tech stacks including AI, Web and App.
  ◦ Elevated brand visibility and built industry trust by representing Boraq in strategic collaborations and tech events.

Club Memberships

- **AUST Robotics Club (AUSTRC)** *Jan 2024 – Present*
  General Member [🌐]
  ◦ Strengthened robotics engineering fundamentals by completing the intensive **Robotics Bootcamp 101 (Spring 2024)**, with hands-on training in microcontroller programming, sensor integration, and kinematics.
  ◦ Contributed to club operations by supporting logistics, documentation, and technical execution across events, hands-on workshops (Drone, LFR), and peer-led training sessions.
  ◦ Collaborated closely with mentors and peers to facilitate structured knowledge sharing, onboard new members effectively, and foster a proactive culture of innovation and continuous learning.
